

ALOE VERA

A New and Improved Facility

Who said **BIGGER** isn't **BETTER**? Well, in the case of our new Aloe Vera of America manufacturing plant in Dallas, TX, we think it is! 'AVA' - as we call it - has recently finalized its move into a brand-new, state-of-the-art and, may we say, **HUGE** facility. We are so confident in the growth that you will all enjoy as you work hard to build your Forever business, that we have invested millions into this incredible facility.

I know... it is hard to get excited about a manufacturing plant! But hang with us a minute here, and we'll tell you a little more about what is making us dance in the aisles!

Moving over 350,000 cases in over 220 boat containers to more than 120 destinations worldwide is a pretty mean feat. It takes a whole ton of space - but, guess what?! The new AVA building has plenty of it - in fact, it is over twice the size of the old building at 274,000 sq ft, and we still have plenty of room

Front Entrance to Aloe Vera of America

to add another section when we need to! We now have 20 loading docks, a container pool of over 50 containers, and the Foreverliving.com fulfillment area is over three times what it used to be!

Where we know you'll get excited is when we tell you about the 'production capacity' - which means how much aloe we can stabilize and put into those beautiful yellow bottles every
